Vitamin E, Minimum	350 IU/lb

INGREDIENTS:

ProBiotein (Yeast Culture on a fermented media of wheat, oats, barley malt and flax) , Distillers Dried Grains with Solubles, Milled Flax, Salt, Monocalcium Phosphate, Calcium Sulfate, Magnesium Oxide, Potassium Chloride, Proteinated Complexes of Zinc, Manganese and Copper, Zinc Sulfate, Manganese Sulfate, Copper Sulfate, Cobalt Carbonate, Sodium Selenite, Ethylene-diamine Dihydriodine, Aspergillus Oryzae Extract, Vitamin E Supplement, Mineral Oil, Vitamin D3 Supplement, Vitamin A Acetate (stability improved). d-BIOTIN.

Net wt. 25 lbs (11.4 kg)
pail with resealable lid

Look for
(EQUIPRIDE™)
along with its
companion product,
EQUILIX™ which
comes in a solid tub
form for free-choice
supplementation.

SweetPro™ also has specialty
supplements for Beef and Dairy Cattle,
Deer & Elk, and Sheep.

From a Satisfied User!

“I am writing...to tell you how convinced we are
of your product’s superiority!
I have used many vitamin supplements over the
past 30 years and this product is wonderful! My
coats are great, horses that have been diagnosed
with ulcers are virtually pain free, my feet are
healthy and the condition and bloom on all the
animals is amazing!”

(EQUIPRIDE™)

A Unique New
Vitamin, Mineral and
Digestive Aide Supplement

For All Classes of
🌿 **Horses** *🌿*

Customized to Complement
Forages, Improve Appearance,
Performance and Immune
Function Through
Better Feed Utilization

SweetPro™ FEEDS

PROUDLY INTRODUCES

(EQUIPRIDE™

A NEW TOP DRESS WHICH COMBINES SEVERAL NUTRITIONAL FACTORS INTO ONE POWERFUL NEW SUPPLEMENT WHICH RESTORES NEW KICK TO AILING (MAL-ABSORBING) HORSES AND HELPS MAKE THE STRONG STRONGER.

1

(EQUIPRIDE™ blends vitamins, organic complexed minerals, stabilized milled flax and distillers grains with **ProBiotin**.

ProBiotin is a proprietary blend additive consisting of yeast culture, prebiotic oligosaccharides, enzymes, and protein isolates. The **Yeast** in ProBiotin, cultured on a media of wheat, oats, barley malt and flax, is rich in biotin and other nutrients to aid digestion.

The **Oligosaccharides**, often called “prebiotics,” because they feed the beneficial probiotic bacteria, are a key part of the ProBiotin additive. These prebiotics help maintain good digestive tract health.

Enzymes, the catalysts of digestion are included in a fibrinolytic, amylolytic & proteolytic array to assist fiber, protein and mineral utilization.

2

(EQUIPRIDE™ contains **Flax** to promote healthy joints, clear eyes and shiny coats.

Flax helps in many ways. Oil from flax is dense energy which is high in Omega 3 fatty acid content. Omega 3 is an essential fatty acid often missing in modern diets. Flax is also among the richest sources of lignans, which help improve immune function.

3

(EQUIPRIDE™ features **Organic Complexed Minerals**. Zinc, copper and manganese are complexed, or bound to

protein instead of other minerals, assuring high bioavailability.

4

(EQUIPRIDE™ also includes **ethyl alcohol** to raise palatability, enhance fiber digestion and add another non-starch energy source.

5

Now with (EQUIPRIDE™ you get a **feed efficiency boost** so the cost of maintaining your horse in top condition can be reduced.

Look for up to **25% improvement** in forage feed efficiency with **SweetPro™**'s

(EQUIPRIDE™.
